To Whom It May Concern~

Richard Dickenson was the Lead Trades Instructor in our RCFT Program, Robron Campus in Campbell River, during our 2011 summer and fall semesters and 2012 winter and spring semesters.

During that time, Mr. Dickenson proved himself to be a reliable, diligent and talented Instructor. Mr. Dickenson proved highly effective at reaching out to students that were having difficulty with the course material, and spent many hours in remedial instruction that was above and beyond his scheduled responsibilities.

Mr. Dickenson was highly regarded by his peers and College management alike. Mr. Dickenson consistently had excellent performance reviews.

I consider Mr. Dickenson an above average Carpentry Instructor with excellent communication skills, and I wish him great success in all of his future endeavors.

Sincerely,

Mark Pollard.

Mark Pollard

Dean of Trades and Technical Training
